HACKENSACK. OFFICERS PURSUING THE MURDERER.

Dr. David St. John, of Hackensack, held an #115psy the body of Robert McDonald, who was found or Friday morning on the floor of his tumble-down house near Cherry Hill, in an unconscious state, with fright ful wounds and bruises about the head and face, and ent that some of the wounds had been produced by a blunt instrument, probably a club, and the others looked as if they had been inflicted by a heavy boot studded with nails. He concluded, however, that fatal had they been inflicted on a healthy man, an had they not been followed by exposure and want of proper attention. He assigned as the direct cause death pneumonia, superinduced by the confusions and drink

Yesterday morning Sheriff Hill impanelled a jury for the inquest, which probably will not be held before before his death McDonald told James Durie and his wife, who are his near neighbors that he had been assaulted by "Phil" Mann, a mulatto who came from the half-savage settlement in th Ramapo Mountains several years ago with his wife. and who is notorious as a desperado of the most lawless and dangerous character. It has been remarked as a peculiarity of Mann that most of his fighting is done with his feet, which are encased in heavy hob-nailed boots. The wounds which cover McDonald's face and

head were apparently produced in this manner. It is now known that Mann's wife fled with the supposed marderer, and if, as it is believed, they have taken retuge with their old friends in the Ramapo Mountains, there will probably be a hot chase before he is captured. The sheriff, with a posse of his best men, are using every means to run the man down, although so far they have not been able to secure any
